

## What is the Sponsor-A-Classroom Program?

Sponsor-A-Classroom invites the community into our classrooms in support of our students. By adopting a classroom, donors form partnerships with specific classrooms, providing financial and moral support for learning.

A classroom can be adopted for \$500 with 100% of the funds being used directly for the children.

Teachers will have access to the funds through requests for materials and programs that are approved by the principal and relate to the school's mission, vision and curriculum.

The teacher will describe how funds were used at an end-of-year celebration honoring the donors who have made a meaningful contribution in the lives of our students.

## About Sigsbee Charter School

Sigsbee Charter School is a non-profit organization committed to establishing itself as an innovative, engaging elementary school that captivates students' interest through marine studies and environmental education. Capitalizing on its beautiful, aquatic surroundings and 11 acres of green space, Sigsbee offers hands-on integrated learning experiences that teach students to be thoughtful stewards of the environment.

The Sigsbee staff, local military members, and the Key West community have partnered together to support Sigsbee students. A high level of volunteerism is just one of the unique characteristics of our school. A curriculum focused on national standards, best practices and differentiated learning that enriches and challenges all students is another.
